STUNNING GRADE II LISTED FAMILY HOME

Believed to date from the 1500s with later additions, this stunning Grade II Listed family home occupies a private country lane location in the sought after village of Frittenden.

Originally built as a Wealden Hall house, it is presented in immaculate order and is full of character features ranging from inglenook fireplaces to a red brick floor and exposed beams. The accommodation consists of an entrance hall which opens into a light, airy kitchen with a vaulted ceiling, doors to the garden and the reinstated medieval hall's mullioned window. The other side of the entrance hall leads to a utility room, boot room and ground floor shower room. There is also existing permission for a conservatory off the kitchen.

In the original part of the house, a red brick floor incorporating oil fired underfloor heating, inglenook fireplace with log burning stove and exposed beams are features of the dining room which opens into the kitchen, whilst the sitting room also features exposed beams and inglenook fireplace; additionally, on the ground floor is a playroom with extensive cupboards and bookshelves and there is also a separate study.

Ascending to the first floor, there is a modern family bath/shower room. The principal bedroom features exposed beams, fireplace and an ensuite dressing room with extensive wardrobe storage. An inner landing featuring the medieval hall window overlooking the kitchen, leads to two further double bedrooms, each with a dressing/sitting/nursery area.

Separate staircases lead from the first floor to the two second floor double bedrooms where they share a Jack 'n' Jill shower room

Outside, electric gates open onto an expansive gravel drive which provides ample off-road parking and leads to the oak framed garage, carport and log store.

The grounds of approximately 0.5 acre wrap around the property. The garden is laid predominantly to lawn interspersed throughout with mature trees, hedges, flower and shrub beds. There is a paved terrace, ideal for outside entertaining, with a brick path with a rose arbour and bordered with raised flower and shrubs leading to a classic style glass house. To the front of the house a path dissects the lawn and leads to further raised flower and shrub beds sheltered by mature hedging.
